

CAMP CREATE

Virtual Mini Camp

Take a stab at teaching forensic science based activities in this short, hands-on professional development training. Designed to walk educators through standards and concepts covered in Mission Inspire while mapping to their needs.

In person experiences - now offered virtually.

How does virtual professional development work?

Connect with trained university staff through Zoom. Get guidance on how to deploy lessons and map to your specific educational goals.

Teachers explore a range of techniques - from fingerprinting to pH testing to solving their very own murder mysteries using knowledge gained on the way.

All activities and curriculum covered can be used virtually with K-12 students and mapped to standards.

Participants will receive a Forensic Educators Kit, lesson plans and professional development credits through Miami-Dade County Public Schools.

MONDAY, SEPTEMBER 28TH

15 educators per session

WHEN

10:00 AM - 4:00 PM

WHERE

Zoom; links will be sent after registration.

COSTS

\$100/educator

Training Preview

Join experts from the National Forensic Science Technology Center for a day of training that brings research to life and equips you to bring it to your classrooms even virtually.

MAKE AN IMPRESSION

Begin with activities that allows you to get to know your fellow educators and introduces you to our programs.

Tentative Schedule:

10:00 AM Meet & Greet
10:15 AM Icebreaker
10:30 AM Morning Activity
11:15 AM Break

SOLVE CHALLENGES

Next, meet experts and check out how we run virtual forensic camp while trying out new activities.

11:30 AM Midday Activity
12:45 PM Lunch Break
1:45 PM Meet an Expert
2:30 PM Break

GET INSPIRED

Close out with an activity and crash course on Zoom best practices. Review aligned standards and map to your educational needs.

2:45 PM Zoom Tips and Tricks
3:15 PM Afternoon Activity
3:45 PM Standards Mapping
4:00 PM Forensic Farewell

Ready to join the fun?

Featuring:

Immersive Virtual Experiences

STUDENTS AND TEACHERS DIVE DEEP INTO FIU CASE RESEARCH

Want to engage at your own pace or have an extended experience?

From our digital curriculum to interactive programs, there are a number of ways to continue to connect your students with us virtually - no matter where you are.

\$30 per camper
90 minutes
Up to 15 participants

MINI CAMPS

Camp Inspire mini-camps bring easy ways to discover and explore the world from home in a fun group setting through Zoom.

Available during the year to align with holiday breaks, teacher planning days or to accommodate other distance learning needs.

\$200 per lab
\$265 per demo
\$365 per trip

Price and number of participants vary by experience.

INTERACTIVE PROGRAMS

Facilitated Experiences keep learning fun and connect students with each other through the thrill of exploring and discovering the world together.

Through virtual lab activities, group demonstrations, field trips and expert chats learners of all ages engage with key concepts and university research. Content is tiered by grade level and NGSS-aligned (Florida State curriculum).

\$15 per student
for one year

All content is aligned to support the Common Core Standards, Next Generation Science Standards and state science standards.

MISSION INSPIRE TOOLKIT

2020-2021 subscription gives access to four **Expedition Ocean** modules through our digital content portal. Includes 13 activity-based lessons, background presentations, FIU CASE data sets and publications. Educators can engage further with videos to guide them through implementing the standards and activities.

AVAILABLE VIRTUALLY - FALL 2020

Psst... Want a sneak peek?

Follow the **FIU@Home** series at www.caseneeds.fiu.edu/fiuhome for free, related activities and resources.
